Then do I need to do a NEPA review or no review at all or any kind?

Chris,

I'm out of the office for Hurricane work at the moment but it's looking like I'll be back in Atlanta on Monday. I don't believe we need to do one since the applicant already went through the determinations but I'll make sure I'm not missing anything next week.

Does that time frame work for you? I was just sending out the public notice to all who were involved in any of the steps in the permit development.

Are you wanting a consistency determination done for the permit as well?
Chris
